AI Art Competition

Event co-ordinators: Shubham Devlekar, Shardul Diwakar, Ved Tripathi

Faculty co-ordinators: Prof. Rucha Patwardhan, Prof. Uma Ade

Event Description:

The AI Art Competition, is an exciting and innovative event designed to challenge participants' creativity through the use of AI-driven design tools. This competition merges art, technology, and marketing, where participants must think on their feet to create visually appealing and thematic posters within a limited time. The event focuses on leveraging the power of AI to generate captivating art that adheres to the given theme, with no external resources allowed.

Participants are challenged to produce striking, theme-based posters using AI-powered design tools in a race against the clock. With only their skills and AI assistance, teams must quickly generate visually captivating art that fits the given theme. This competition emphasizes innovation, as participants explore new ways to combine art and AI, resulting in original designs that are both creative and futuristic

Rules for the Event:

EMPOWERING INNOVATION THROUGH CREATIVITY

- **Team Composition:** Each team must consist of 2 members.
- **Thematic Adherence:** Participants must strictly follow the given theme, which may involve creating logos, objects, or full posters.
- **Approved Tools:** Only designated AI art and design tools are allowed.
- **No External Help:** All work must be done during the competition, with no external resources permitted.
- **Disqualification:** Any cheating or rule violations will lead to immediate disqualification.
- **Time Limit:** Teams have 1 hour to complete and submit their poster.
- **Submission Format:** PDF or JPG/PNG (high resolution).
- **Size Constraints:** The poster should be of A3 size (297 x 420 mm) and must maintain a minimum resolution of 300 dpi.

Judging Criteria:

- **Creativity:** Originality and innovative use of AI technology.
- **Relevance to Theme:** How well the design aligns with the given theme.
- **Technical Execution:** Effective use of AI tools and design elements.
- **Visual Appeal:** Aesthetic quality, including layout, color usage, and overall visual impact.
- **Message Clarity:** How well the poster communicates the intended message.
- **Relevance to Theme:** How closely the poster aligns with the given theme.

Types of Posters:

Participants can create a variety of poster types, tailored to specific objectives such as:

- **Product Launch Posters:** Featuring AI-generated logos or designs promoting a product or brand.
- **Campaign Posters:** To raise awareness or advertise a cause or event.
- **Corporate Branding Posters:** Showcasing corporate identity or brand values.
- **Event Posters:** For announcing events, workshops, or public gatherings.

EMPOWERING INNOVATION THROUGH CREATIVITY

List of AI tools:

1. **Visme AI Poster Generator:** This tool offers a wide range of customizable templates and a user-friendly editor to help you create professional-looking posters. You can also add animations, 3D graphics, and unique visuals to make your poster stand out.
2. **Designs.ai Poster Maker:** This tool provides over 20,000 customizable templates and a vast library of icons, images, and graphic elements. You can also resize your poster designs for all platforms with just a few clicks.
3. **Canva AI Poster Maker:** This tool offers a range of customizable templates and a user-friendly editor to help you create professional-looking posters. You can also add effects, filters, and text to make your poster stand out.
4. **Adobe Fresco AI Poster Maker:** This tool uses AI to generate poster designs based on your input. You can choose from various templates, customize the design, and download your poster in high-resolution.
