

TECHNOKRUTI

Ideathon

Event co-ordinators: Mayuresh Desai, Udhay Chugh, Satyam Jha

Faculty co-ordinators: Prof. Sandeep More, Prof. Nilesh Mehta, Prof. Santosh Kadam

Event Description:

The Ideathon invites creative thinkers, developers, and innovators to tackle real-world problems by developing cutting-edge technology solutions. Participants will embark on a journey from **ideation** to **abstract submission**, concluding with a **presentation** of their projects to a panel of judges and peers.

This event is designed to foster creativity, teamwork, and problem-solving, encouraging participants to think beyond the ordinary and develop practical solutions to everyday challenges. Whether your passion lies in software, hardware, or a combination of both, this challenge offers a platform to showcase your talent.

Event Phases:

1. Abstract Submission (Phase 1):

Abstract should include:

- **Title:** A concise phrase that captures the essence of the project and its solution.
- **Problem Statement:** Clearly define the specific issue or challenge that your project aims to address. **(The idea should be unique and should not be taken from any existing problem statements)**
- **Solution:** Provide a brief overview of your proposed approach to solving the identified problem.
- **Implementation:** Summarize the steps, tools, and methods you'll use to execute your solution.
- **Significance:** Highlight the potential impact and benefits of your project on a larger scale.

2. Presentation (Final Phase):

- The presenter has been allotted 6-7 minutes to deliver their presentation.
- There will be a Q&A session lasting 2-4 minutes. The presentation will consist of 6-7 slides.

TECHNOKRUTI

Rules for the Event:

- **Eligibility:** Open to all college students, individually or in teams of up to 4. Teams should be interdisciplinary.
- **Problem Selection:** Choose a real-world problem addressable with technology. Problem statement must be specific and well-defined.
- **Project Guidelines:** Solution must involve technology. Think creatively, but ensure practicality.
- **Timeframe:** Competition runs for [insert number of days/weeks]. Submit problem definition and outline by the end of the abstraction phase. Complete presentation before the final round.
- **Presentation Guidelines:** Present projects in [insert time limit]. Include problem introduction and proposed solution. Use visual aids.
- **No foul language:** Participants are prohibited from using offensive or inappropriate language or they will be disqualified.
- **Each team should come with their own laptops:** Each participating team is required to bring their own laptops to the event.
- **Code of Conduct:** All work must be original. Plagiarism or cheating will result in disqualification. Respect deadlines and professional conduct.

EMPOWERING INNOVATION THROUGH CREATIVITY

Judging Criteria:

- **Innovation:** How creative and original is the solution?
- **Impact:** How well does the solution address the real-world problem? What is its potential for large-scale impact?
- **Feasibility:** Is the solution practical, and can it be implemented in the real world?
- **Technical Execution:** How well the solution is? Does it demonstrate the core functionality?
- **Presentation:** How well did the team explain and showcase their project to the judges?
