Tech Crossword Challenge

Event co-ordinators: Piyush Gavit, Ved Tripathi

Faculty co-ordinators:

Event Description:

The Tech Crossword Challenge is a fun and engaging event where individual participants will solve a crossword puzzle based on technology-related terms and concepts. The goal is to test participants' tech knowledge while fostering personal skill development and friendly competition.

Rules for the Event:

1. Participation: The event is for individuals only, with no team play allowed.
2. Time Limit: Set a time limit of 20-30 minutes to solve the crossword.
3. Clue Theme: All clues are related to technology (e.g., programming languages, cybersecurity, IoT, etc.).
4. No External Help: Participants cannot use the internet or other resources to find answers.
5. Hints: Participants can request up to 3 hints with a -2 points deduction for each hint used.
6. Winner: The individual with the most correct answers or the first to finish wins.
7. Tie-breaker: In case of a tie, a bonus question or puzzle will be used to break the tie.
8. Every correct word submission will give +4 points to the participant
9. Duration: 20-30 minutes (Each Participants)

Judging Criteria:

1. Accuracy - Points for correct answers.
2. Speed - Bonus for fastest completion.
3. Teamwork - Points for collaboration.
4. Creativity - Extra points for creative solutions.
