Tech Quiz Event

Event Co-ordinators: Chaitanya Mestry (B.E.), Vikas Gupta(T.E.) .

Event Description:

The Tech Quiz is designed to test participants' knowledge across various domains of technology. This competition challenges individuals to showcase their understanding of key topics in Computer Science, Current Trends, and General Engineering through a mix of engaging questions that stimulate critical thinking and rapid problem-solving.

Winners will be recognized based on their overall performance, with a leaderboard highlighting the top participants. The Tech Quiz provides a platform for students to compete in a fast-paced environment, offering recognition for those with a strong grasp of technological concepts. Further details about the format will be shared closer to the event date, ensuring a dynamic experience for all participants.

Rules:

- 1. Quiz Format:** Questions will cover Computer Science, Current Trends, and Engineering.
- 2. Code of Conduct:** Participants are expected to maintain a respectful and collaborative environment throughout the competition
- 3. No foul language:** Offensive language will result in disqualification.
- 4. Question Format:** Participants will face a variety of question types, including multiple-choice, true/false, and short answers.
