

1. Basic Information

Event Name – Captain's Compiler

Event Type – Technical

Event Duration – 23 September @ 11.30AM to 1.30PM

Venue – Join WhatsApp group for more information

Event Coordinators – 1. Bhuvan Shetty

Phone number: 9987896732

Email id: bhuvanshetty68@gmail.com

2. Sami Shaikh

Phone number: 7038742886

Email id: shksami2004@gmail.com

3. Walmikee Alone

Phone number: 9029419256

Email id: walmikee123@gmail.com

2. Event Description – Are you a programming wizard with a knack for spotting hidden bugs? Join **Captain's Compiler**, **TECHNOKRUTI's** event, where you'll dive into a sea of buggy code and race against time to fix syntax errors, logic flaws, and cursed snippets. Whether you're a seasoned coder or just setting sail, this contest is your chance to showcase your problem-solving skills, sharpen your coding techniques, and connect with fellow tech buccaneers. Think fast, code smart, and prove you're the ultimate debugger on deck!

3. Participation Guidelines

- **Eligibility** – Students of our institute only, no outsiders.
- **Team Size** – A team of 3 participants [MIXED YEAR].
- **Registration Process** – Online and Offline.
Participants must pay Rupees 90 per team as the registration fee.
prizes: 1st prize 1000Rs, 2nd prize 600Rs
- **Confirmation & Communication** – Participants will receive updates through event WhatsApp group.

4. Rules & Regulations

- **Time limits:**
Round 1 (Captain's Curriculum): 5 minutes.
Round 2 (Deck of Errors): 10 minutes.
Round 3 (Captain's Curse): 20 minutes.
- **Restrictions:**
Time Limit: Participants must fix the code within the time given.
No Internet Access: No Googling or using online compilers.
Solo Challenge: Each participant works individually, no team discussions.
- **Disqualification criteria:**
Using Internet or AI tools during the round
Helping or chatting with others during the round.

5. Event Structure & Flow

- **Number of Rounds:**3

- **Round Descriptions –**

Round 1: Captain's Curriculum: Participants will answer a set of theory-based questions covering programming fundamentals, algorithms, and basic concepts. Questions range from simple to moderate.

Round 2: Deck of Errors: Participants will be given a block of code containing multiple errors. They must identify and correct these errors within the given time.

Round 3: Captain's Curse: Participants will debug and optimize a complete mini program. The goal is to fix hidden bugs, improve performance, and ensure all test cases pass.

- **Flow of Activities –**

10 minutes- team checking and seating

10 minutes- Quick brief of event

5 minutes- Round 1

10 minutes Round 2

20 minutes Round 3

+5 minutes as buffer

total 1 hour for a batch.

- **List of topics :** C, C++, Java, Python Machine learning

6. Judging & Evaluation

- **Judging Criteria –**

➤ Category	➤ Weightage	➤ Evaluation Focus
➤ Conceptual Accuracy	➤ 25%	➤ Understanding of programming fundamentals, theory, and logic
➤ Code Correction Skills	➤ 20%	➤ Ability to identify and fix syntax errors effectively
➤ Debugging Ability	➤ 20%	➤ Skill in locating and resolving functional bugs in code
➤ Optimization & Efficiency	➤ 15%	➤ Improving code performance (time/space complexity)
➤ Code Quality	➤ 10%	➤ Clean structure, modularity, comments, and readability
➤ Edge Case Handling	➤ 5%	➤ Ability to anticipate and handle unusual or tricky inputs
➤ Time Management	➤ 5%	➤ Completing tasks within the given time frame

- **Scoring Pattern –**

FOR ROUND 1

Criteria	Points
▪ Correct answers only	30

FOR ROUND 2

Criteria	Points
▪ Accurate identification of syntax errors	15
▪ Correct and functional code after fixes	15

FOR ROUND 3

Criteria	Points
▪ Bug identification and resolution	15
▪ Optimization (logic or efficiency)	10
▪ Handling edge cases	10
▪ Code documentation/comments	5

- **Tie-Breaker Rules –** In case of equal scores.

A participant from a group will be given another code on basis of round 3
whoever does it first will be the winner of Tie breaker
